

I scoured through multiple alt-right /pol/ boards on sites including 8kun, 9chan, soyjack.party, krautchan, and many more.

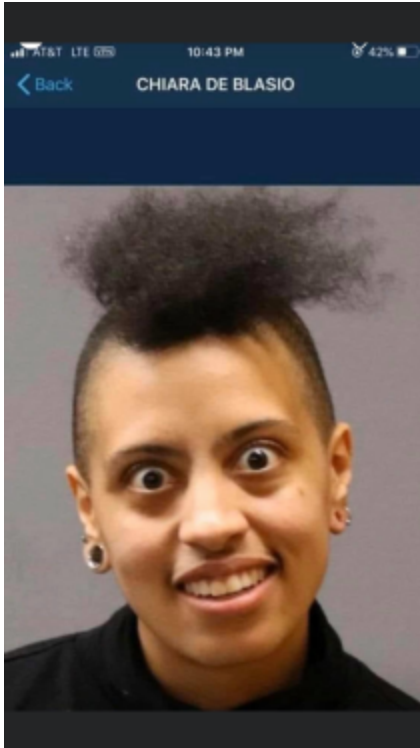

- Coalfax: A registry of “coalburners” (white women who have relationships with black men)
- Coal tax: when women experience domestic violence at the hands of a black partner (paying the coal tax)
- Sapoid: someone who is half black and half white (the word sapien + the term Negroid)
 - Only saw this in one meme, but its possible the term will catch on
- Chimpout: A freakout by black people (not to be confused with the “random chimp event”/”planned chimp event” meme)
 - There’s even a chimpout.com
- “Wenn alle untreu werden”, (If all become unfaithful, we remain loyal), also called “The Song of Faithfulness”: A song used by the SS

I have found a pretty good website through the Telegram channel "Forty-Fifth Division". It is about the Jews behind slavery, and I think it would be a good way to redpill normies as it was created by a black guy. Behind this is that you can't be labelled as "racist" or "white supremacist" for sharing such information, or atleast thats what I imagine. This is the link: <https://wethoughttheywerewhite2.weebly.com>. If the general population knew about this, it would be easier for them to swallow the truth behind WWI, WWII, and the state of today.

-
- Sheboon: derogatory term for black women
- Bantus: black people

- This image is thrown around as “proof” that black people are dangerous
- Goldstein: stereotypical Jewish last name-implies someone is jewish
- Mark of the Jew: circumcision
- Coincidence detector: web extension that points out names of Jewish people by using ((()))

Meant to keep tabs on a lot of bullshit, but this sort of fell to the wayside, oops

- Gott mit uns
 - German for “God with us”, a slogan Nazis liked to use
- *Naming the Enemy: A Crypto-Nazi book*
 - On Amazon because of course it is

Quote:

Is it possible to fight an enemy without naming who he is? In this alternate history of the end of World War II and its aftermath, Joseph P. Kennedy Sr., Henry Ford, and Charles Lindbergh come up with a plan to put the Kennedys in the oval office. Will they succeed, or will the enemy bring down the Kennedys, and with them the nation, through assassination and political corruption?

However, that does not give a good idea about what the book is about. It is merely a sanitized version for Amazon.

What I wanted to call the book was [Naming the Jew](#). Here is a correct description of what the book is about:

Quote:

Is it possible to fight the Jew without naming who he is? In this alternate history of the end of World War II and its aftermath, Joseph P. Kennedy Sr., Henry Ford, and Charles Lindbergh come up with a plan to put the Kennedys in the oval office to secure Europe and the United States as homelands for White people. Will they succeed, or will the Jew bring down the Kennedys, and with them the White race, through assassination and political corruption?

Q-anon specific shit

WHAT IS BAKING?

BAKING can refer to either

- *Managing the Bread (what baker does from the time he steps into the kitchen to the time he steps out)*
- *Actual baking process: step done to close one bread and open another*

Two main tasks: collecting notables and making sure there is always a General thread for anons or Q to post on.

Collecting notable posts

Usually done by on-duty baker but may be collected by a note-taker as well.

Bakes can be either

- regular bakes (when bread is staffed) or
- e-bakes (e = emergency bakes) when it is not.

- Essentially Baking is running Q-anons bullshit threads
